Trusted since 1983
Evolved to a gel that fills wound cavities, controls moisture, and minimises risks in infected wounds.

Smart & Pain-Free
When irrigated with (0.9%) saline, Sorbsan makes removal quick and pain-free for the patient.

Super Fast Healing
Sorbsan™ aids hemostasis and quickly moves the wound toward healing.

Why It Matters for the NHS
Delivers reliable, cost-effective wound care trusted by clinicians for over 40 years.
