UNO+ GENADYNE™ NPWT

UNO+ is a compact, reusable NPWT system that delivers **powerful**, **flexible wound therapy** across hospital and home settings. It's **lightweight, easy-to-use** and treats a wide variety of wounds.

UNO+ application:

- Surgical incisions (e.g orthopaedic, vascular, plastics)
- Partial-thickness burns, grafts, and flaps
- Chronic wounds
- Non-bleeding traumatic wounds

KEY FEATURES COMPARISON	UNO+	SINGLE-USE NPWT
