

# Carbon Reduction Plan

Supplier name: Creed Medical Ltd T/A Creed Health

Publication date: 01/09/2024

## Commitment to achieving Net Zero

Creed Health is committed to achieving Net Zero emissions by 2050

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
<p>This is the first time we have reported our carbon footprint so this calculation establishes our baseline. It is based on the calendar year.</p> <p>Our Baseline calculation includes:</p> <ul style="list-style-type: none"><li>• Scope 1: Direct Emissions</li><li>• Scope 2: Indirect Emissions</li><li>• Scope 3 Categories: 3: Fuel and energy related activities: 4: Upstream transportation &amp; distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking: 9: Downstream transportation &amp; distribution.</li></ul> <p>In calculating the tCo2e Creed Medical has used the UK Gov figures for activities provided in document: ghg-conversion-factors- 2024_condensed_set_for_most_users_2024</p> <p>I</p>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	1.6 tCO <sub>2</sub> e
Scope 2	1.3 tCO <sub>2</sub> e
Scope 3 (included sources as detailed above)	571 tCO <sub>2</sub> e
Total Emissions	574 tCO <sub>2</sub> e

# Carbon Reduction Plan

## Current Emissions Reporting

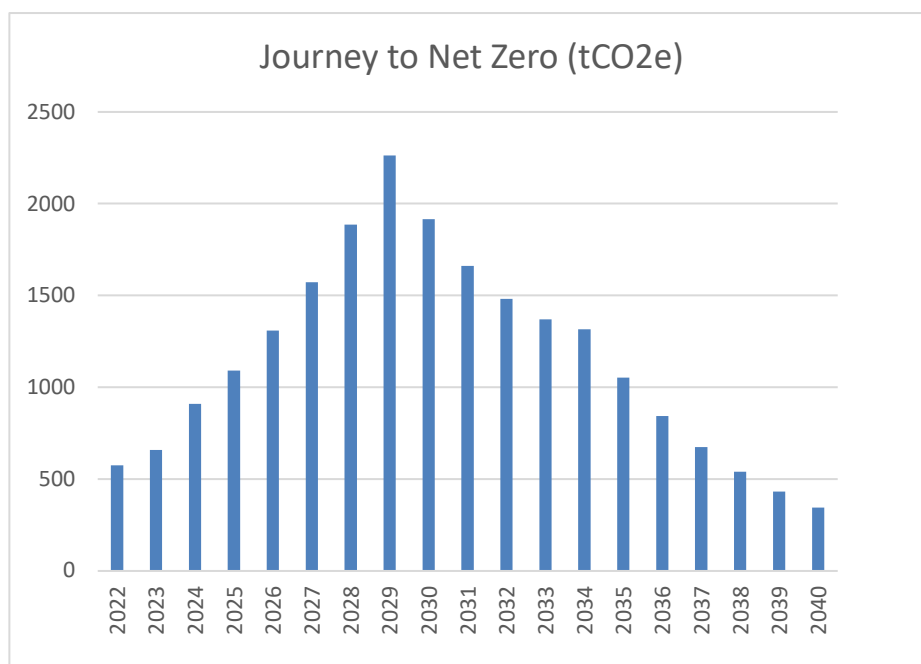

Reporting Year: 2023	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	2.5 tCO <sub>2</sub> e
Scope 2	1.5 tCO <sub>2</sub> e
Scope 3 (included sources as detailed above)	653 tCO <sub>2</sub> e
Total Emissions	657 tCO <sub>2</sub> e

## Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will increase over the next 5 years due to increased business activity after which we will start to see a decline due to initiatives by our company as well as national initiatives and logistics partners. We believe our plan is realistic and achievable and takes into consideration our low emissions starting point and growth plans.

Progress against the net zero targets can be seen in the chart below:

# Carbon Reduction Plan

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the baseline and the measures will be in effect when performing the contract.

- Changed to Electric Company Cars
- Completed putting a process in place for cardboard recycling

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

Our carbon reduction plan will achieve net zero by 2045 at the latest.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.
