Bard-Parker® protected blade system

Sharps injuries can occur at any time: prior to, during, or after a procedure. The Bard-Parker Protected Blade System helps protect your staff before, during and after using the use of the scalpel. We designed the system with a similar weight and feel to our conventional products. It even uses the same stainless steel blades, but adds a locking retractable shield that features simple, one-handed activation.

- Similar weight and feel to our conventional scalpel
- Same stainless steel blade as our conventional scalpel
- Locking retractable shield with easy one-handed activation
- Long handle available with select blade sizes
- Can be used by a right or left handed surgeon
- Not made with natural rubber latex and intended for single-use

The image shows several large, blue, woven fluid management bags. One bag is prominently in the foreground, standing upright on a light-colored wooden floor. Another bag is partially visible to its left, and a third is in the background. White, thick, rounded geometric outlines are superimposed on the image: a rectangle in the top left, a square in the top right, and a large, irregular shape on the right side. The text 'Fluid management and floor safety' is overlaid in the bottom left corner.

Fluid management and floor safety

Colby™ fluid management products

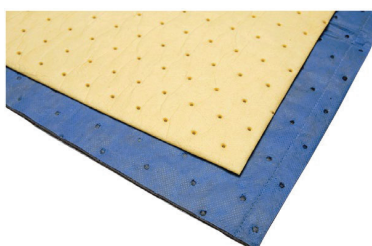

Our Colby™ line provides a convenient and effective means of managing infectious waste fluid generated during wet procedures. Our products help to reduce the likelihood of injuries associated with wet floors. They aid in protecting healthcare professionals and housekeeping personnel from contact with contaminated substances and help support your efforts to comply with OSHA's Bloodborne Pathogens Standard. Our products do not change the contents of medical waste, but rather help your team to more effectively contain it.

SurgiSafe® absorbent floor mats

- Help keep floors clean, dry, and slip-free, even during fluid intense procedures
- Contains fluid in one place to help make operating room turnover time faster and more efficient
- Absorb irrigates, blood, and bodily fluids through unique wicking, absorbency, and fluid retention properties, while conforming to uneven floor surfaces without bunching
- Help protect your staff from slips, trips, and falls in the operating room
- Help reduce staff exposure to infectious waste
- Helps eliminate using blankets and towels which can cause tripping hazards
- Non-sterile, intended for single-use, and not made with natural rubber latex

SurgiSafe® specialty absorbent floor mats

- Designed for strength and durability
- Features low profile design, which allows for foot pedals or stools to roll with ease
- Offered in large sizes to accommodate surgical procedures where more than one person needs to stand on the mat
- Blue mat features fluid barrier backing to help keep floor beneath dry and clean
- Yellow mat absorbs fluid from the top and bottom

SurgiSafe® EvacMat® absorbent floor mat

- Combines the functionality of absorption and suction to aid in efficiently removing fluid waste from the O.R. floor
- Extremely quiet operation helps to decrease distraction of the O.R. staff– as quiet as an indoor conversation
- The top layer of the mat contains wicking to help prevent pooling
- Works well with wall suction
- Simple to use and clean up – red bag friendly
- Low profile allows for the O.R. staff to roll equipment over the mat without loss of suction
- Large enough for two people
- Provides cushion to help reduce fatigue during long procedures
- Aids in keeping the O.R. floor dry to reduce the risk of injuries related to wet floors
- Non-sterile, intended for single-use, and not made with natural rubber latex

Part No	Colour	Absorbency Level	Fluid Barrier Backing	Size	Qty
95005	Yellow	Medium	Yes	91x122cm	5/Case

SurgiSafe® CinchMat® absorbent floor mat

- Combines the effective absorbency of the SurgiSafe® mat with an easier way to handle the mat during disposal
- Pull cord design helps make clean-up and O.R. turnaround time simple and fast
- The top layer has wicking abilities that quickly absorbs irrigants, blood, and bodily fluids from the O.R. floor to help prevent pooling and splashing
- Skid-resistant fluid barrier backing helps ensure that the floor beneath the mat remains dry and prevents staining
- Aids in keeping the O.R. floor dry to reduce the risk of injuries related to wet floors
- Non-sterile, intended for single-use, and not made with natural rubber latex

84625-C	Blue	Medium	Yes	81x116cm	10/Case

ErgoSupport® anti-fatigue mat

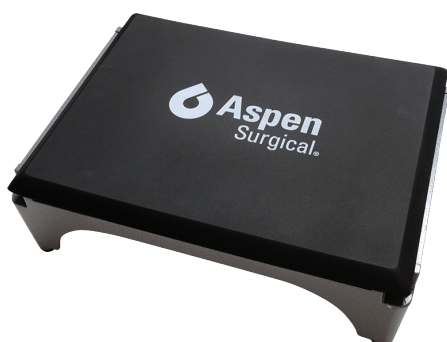

- Intended to help reduce fatigue that healthcare personnel experience during long hours of standing in one location
- Uses a dual foam and gel technology to provide comfort under the foot
- The top surface provides a necessary friction level with damp or dry surgical booties
- The bottom surface is made of a high-traction material to provide slip resistance
- Available in four sizes
- Water-resistant
- Reusable for up to 6-12 months
- Non-sterile and not made with natural rubber latex

Part No	Colour	Size	Qty/Case
82001	Red	45x61cm	1

82001	Red	45x61cm	1

ErgoSupport® anti-fatigue step stool mat

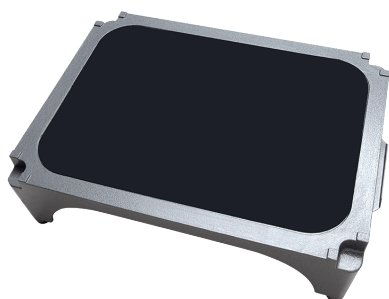

- Intended to help reduce fatigue that healthcare personnel experience during long hours of standing in one location
- Made with polyurethane foam to provide comfort under the foot
- Matte textured surface provides optimal friction to help prevent slips and falls
- Features a low-profile, durable edges, and slip-resistant bottom
- Sides are beveled to prevent tripping
- Small size fits on operating room step stool
- Fluid and dirt resistant with anti-microbial properties
- Non-sterile and not made with natural rubber latex

Part No	Colour	Sterility	Qty/Case
85005	colour	Non-Sterility	5

ErgoSupport® anti-fatigue step stool

- Stackable and interlocking cast aluminum step stool
- Protected with an anti-microbial coating
- Designed to eliminate sites for liquid pooling and debris accumulation to help reduce contamination
- High density rubber foot pegs
- Compatible with the ErgoSupport® Anti-Fatigue Step Stool Mat
- Anti-slip surface for better stability
- Non-sterile and not made with natural rubber latex

Part No	Colour	Sterility	Qty/Case
ST-001	Silver	Non-sterile	4

WaterBoom® floor suction strip

- Helps hold back, contain, and quietly suction an unlimited amount of waste fluid
- Provides strong suction, while conforming to your O.R. floor
- Its low profile helps you step over it without suction loss
- 4 yards of tubing attaches from the side to help reduce tripping hazards
- This unobtrusive device does not require repositioning and is a good choice for those who prefer nothing at their feet
- Non-sterile, intended for single-use, and not made with natural rubber latex

Colby™ Floor Suction Devices

WaterBug Quiet Floor Suction® Device

- Efficiently suction fluid waste to help reduce risks and maintain a dry operating room floor
- Its raised design and 30.5cm of flexible tubing allows for easy repositioning
- Suctions unlimited amounts of irrigants, blood, and other bodily fluids from the floor
- For thorough pickup, fluid is captured from the top via holes as well as from the bottom through suction and wicking action
- Non-Sterile, intended for single-use, and not made with natural rubber latex

Product Code	Tubing	Qty
90010	Yes	10/Case
90020	Yes	20/Case
90030	Yes	30/Case

AquaNot® Floor Suction Device

- Has similar characteristics as the WaterBug Quiet Floor Suction® Device, but has a lower profile
- Efficiently suction fluid waste to help reduce risks and maintains a dry operating room floor
- Suctions unlimited amounts of irrigants, blood, and other bodily fluids from the floor
- For thorough pickup, fluid is captured from the top via holes as well as from the bottom through suction and wicking action
- Non-Sterile, intended for single-use, and not made with natural rubber latex

Speciality disposable light handle

- Designed to have a similar look and feel as the Trumpf Medical™ reusable handle
- Works with all Trumpf Medical™ ALC plus Surgical lights, including the Trulight® 5000 and iLED® 3/5
- Lens clarity is equivalent to the reusable handle, providing rapid response of the laser and sensor
- Ultra-durable lens and a snap-on feature that helps allow quick and easy installation and removal
- Light intensity can be adjusted with the touch sensors while the disposable handle is being used
- Intended for single-use and not made with natural rubber latex

Product Code	Qty
LT-ALC01	1/pouch, 18 pouches/box

Standard disposable light handles

- Two systems offered for convenience: rigid or flexible light handle cover
- Helps eliminate costly reprocessing and create uniformity throughout your hospital
- Light handle adaptors are available for most of the popular lights
- Please contact your local aspen surgical representative for further adaptor information
- Sterile, intended for single-use, and not made with natural rubber latex

Standard disposable flexible light handle, sterile

Product Code	Qty
LT-F01B	1/pouch, 100 pouches/box
LT-F02	2/pouch, 80 pouches/box
LT-F03	3/pouch, 80 pouches/box

Standard disposable rigid light handle cover, sterile

Product Code	Qty
LT-R01	1/pouch, 24 pouches/box

O.R. camera cover

- Helps save time and reduce inconvenience associated with having to sterilize reusable camera covers and helps enable a quicker O.R. turnaround time
- The clear lens allows for complete visualization of the surgical field with no distortion
- Please contact your local Aspen Surgical representative for further adaptor information
- Sterile, intended for single-use, and not made with natural rubber latex
- Adaptors are currently available for many common O.R. cameras

OR camera cover rigid, sterile

Flexible OR camera cover, sterile

Product Code	Description	Qty
LT-CF02	Flexible camera cover	40/box

Sterile speciality light handle and camera cover, compared to Steris® LB53 and LB54

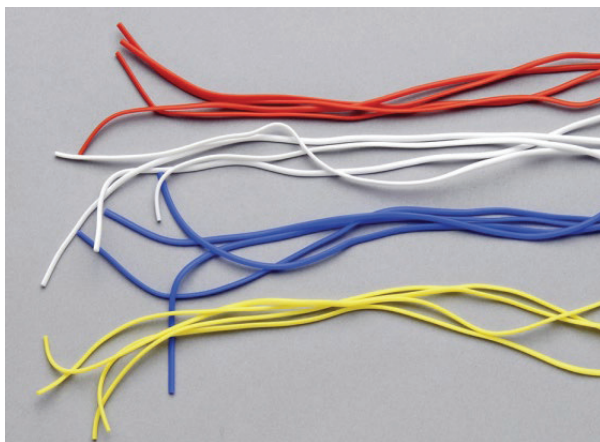

- The Aspen Surgical Specialty Light Handles and Camera Covers provide a sterile interface between non-sterile operating room cameras and the sterile surgical field.
- They create uniformity and save time and money by using one light handle and one camera cover for multiple STERIS® models, enabling quicker OR turnaround times.
- Designed with a sturdy opening and a large lip, these single-use devices ensure easy installation and feature a clear, ultra-durable lens that maintains image clarity.
- The clear lens allows for complete visualization of the surgical field, and the products are latex-free.
- Disposable O.R. Light Handle Cover, comparable to STERIS® LB53 (Compatible with HarmonyAIR® E -Series, HarmonyAIR® M -Series, HarmonyAIR® G -Series, Harmony LED, Harmony vLED, Harmony LA)
- Disposable O.R. Camera Cover, comparable to STERIS® LB54 (Compatible with HarmonyAIR® E-Series, HarmonyAIR® M -Series, HarmonyAIR® G -Series, FREE5® Camera System, Other legacy STERIS® Harmony Surgical Lighting Systems)

General purpose needle guide starter kits

Protek™ general purpose needle guide starter kits

General purpose (in-plane) needle guide starter kits contain the necessary components for a safe and precise biopsy. The custom fit single or multi-angle bracket is designed to meet predetermined angles defined by ultrasound system software guidelines. Single-use biopsy needle guides easily snap onto the bracket providing a fixed path for the needle. Pullup™ probe cover kits help to maintain procedure sterility and reduce cross-contamination.

• Please note, kits have both sterile and non-sterile components unless otherwise noted on product label

Protek™ vascular needle guide starter kit

Vascular (out-of-plane) needle guide starter kits contain the necessary components for a safe and precise biopsy. The Custom fit bracket securely attaches to the probe with ease. Single-use, depth specific, ProV-Access™ needle guides snap onto the bracket providing a fixed path for the needle. PullUp™ probe cover kits help to maintain procedure sterility and reduce crosscontamination.

- Please note, kits have both Sterile and Non-sterile components unless otherwise noted on product label

Example of Protek™ Vascular Needle Guide Starter Kit

Product Codec	For use with	Starter kit content
1-535-7311	GE Healthcare 4C, 4C-A, 4C-D, 4C-RS, 4C-SC, 5CS	(1) Non-sterile reusable vascular bracket; (3) Sterile 1.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7397	Htachi L64	(1) Non-sterile reusable vascular bracket; (3) Sterile 2.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7292	Mindray C4-1	(1) Non-sterile reusable vascular bracket; (3) Sterile 2.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7276	Mindray C5-2E, C5-2s	(1) Non-sterile reusable vascular bracket; (3) Sterile 2.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7277	Mindray L12-4s, 7L4s, L14-6Ns, L14-6NE, L12-3E	(1) Non-sterile reusable vascular bracket; (3) Sterile 2.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7273	Mindray L14-5w, L14-5WE, L14-5WU	(1) Non-sterile reusable vascular bracket; (3) Sterile 1.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7274	Mindray L9-3U, L9-3s, and L9-3E	(1) Non-sterile reusable vascular bracket; (3) Sterile 1.0cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands
1-535-7279	Mindray SC8-2s, SC8-2U, SC8-2Us	(1) Non-sterile reusable vascular bracket; (3) Sterile 1.5cm ProVAccess™ single-use needle guides; (3) Sterile 5" x 48" (13cm x 122cm) clear PullUp™ probe cover kits with sterile gel and bands

Product Code	For use with	Starter kit content

1-535-5416	3.5cm, 2.5cm, 1.5cm	Sterile	10

Protek™ clingtouch™ monitor covers

- Helps minimise cross-contamination
- Protects equipment
- Reduces post-procedural cleanup
- Unrolls for easy application
- Top and bottom adhesive to secure cover
- Clear polyethylene and vinyl (not made with natural rubber latex)
- Sterile, intended for single-use

Product Code	Description	Qty
1-519-0180	43.2cm x 43.2cm	12
1-519-0181	43.2cm x 43.2cm	12

Protek™ pullup™ biopsy instrument cover

- Helps minimise cross-contamination
- Protects equipment
- Reduces post-procedural cleanup
- Patented needle isolator allows needle to pierce through cover while maintaining a sterile barrier
- Removable patented pullup™ with self-adhesive ensures device is fully enclosed
- Telescopic-fold ensures easy gel and cover application
- Clear polyethylene (not made with natural rubber latex)
- Sterile, intended for single-use

Product Code	Description	Qty
1-519-1003	10cm x 43cm	24

Protek™ ultrasound system covers

- Helps minimise cross-contamination
- Protects equipment
- Reduces post-procedural cleanup
- Clear polyethylene (not made with natural rubber latex)
- Sterile, intended for single-use

Product Code	Size	Kit content	Qty
1-519-1008	37cm x 76cm	CT control rail cover and 6 tapes	50
1-519-1010	15cm x 25cm	CT control cradle cover and 3 bands	50
1-519-101 1	76cm x 76cm	System cover and 2 tapes	24

Needles

Richard-Allan® surgical needles

Aspen Surgical carries many styles and sizes of Richard-Allan® Free-Eyed Disposable Needles used for suturing. This includes needles used in an operating room setting. Richard-Allan® Needles are known for their strength and are crafted to help guard against imperfections. This makes Richard Allan® Surgical Needles a great choice for specialty procedures.

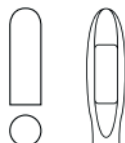

Surgical Needle Reference Guide

2050 – Part Number

Description – Kidney Blunt ½ Circle Taper

Please note the needles drawn are not to scale

Suture retrievers

Suture retrievers

The North American-made suture retrievers below provide high quality for the clinical staff, while at the same time offering cost savings to the medical facility. The knurled aluminium handles and distinctive colouring for ease of use and comfort in-hand. These suture retrievers are designed for single patient use. Intended to aid in the passing of sutures through bone and soft tissue during orthopaedic surgery.

Hoffee® blue lasso suture retriever

- Comparable to Smith & Nephew® Hewson® suture retriever 7111-1579 and Arthrex® transosseous suture passer AR-1000
- Hewson suture retriever replacement
- Aluminium knurled blue handle is weighted for ease of use
- Blue suture loop for increased visibility
- 25.4cm length is suitable for most laparoscopic procedures

Product Code	Description	Qty
710000	Sterile, intended for single-use	5 pouches/box
710000NS	Non-sterile, individually Packaged	100/box

Green genie suture passer

- Comparable to SWANSON™ suture passer
- Aluminium knurled green handle is weighted for ease of use
- Wire suture loop
- 16.51cm length

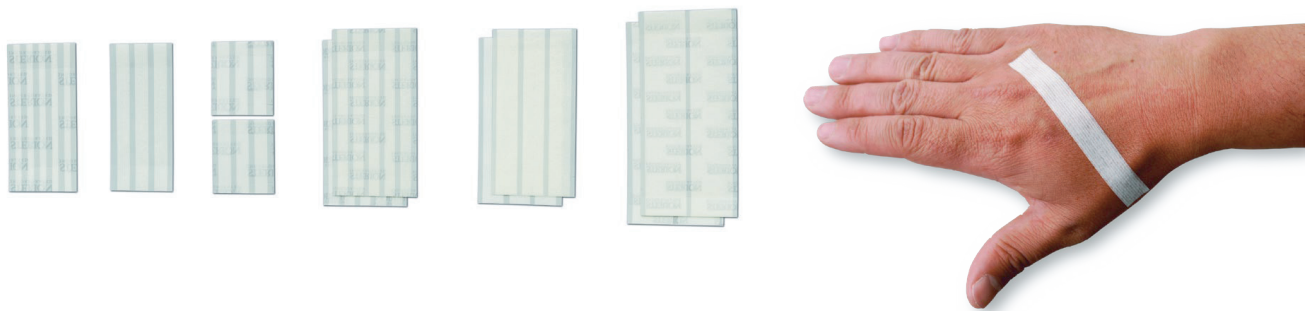

Product Code	Description	Qty
710001	Sterile, intended for single-use	5 Pouches/box

Skin closures

Sterion® filament reinforced skin closures

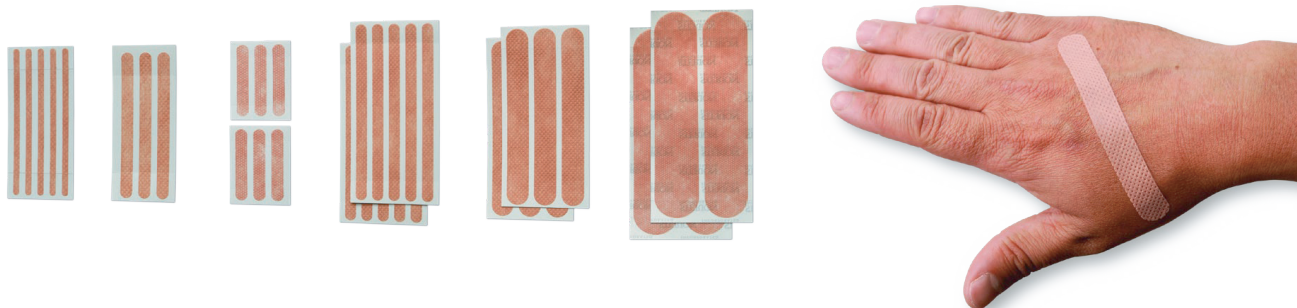

- Reinforcing filaments offer added strength for large skin surface closures
- Filament Reinforced Skin Closure style is accepted as the standard by most healthcare professionals
- Breathable material designed to allow moisture transmission, to help reduce the chance of skin maceration
- Less painful to apply than suturing or stapling providing more comfort to the patient
- No adhesive enhancers required
- Strips are curl-resistant
- Sterile, intended for single-use, and not made with natural rubber latex

Product code	Description	mm	Strips/Pouch	Pouches/Box

751048PBX	Filament Reinforced Skin Closures	25.4 x 127	4	25

Sterion® flexible skin closures

- Non-woven flexible backing helps reduce the chance of skin shear that can occur when edema or flexing puts excessive pressure on the skin closure ends
- Less painful to apply than suturing or stapling, providing more comfort to the patient
- No adhesive enhancers required
- Sterile, intended for single-use, and not made with natural rubber latex

Orthopaedic patient positioning

Beach chair accessories

The north American-made head restraints are used with the following beach chairs: Allen®, Arthrex®, schemed™, Skytron®, Smith & Nephew® and Steris®. Each surgical positioning foam product is designed for single patient use. Intended to support and maintain the position of an anesthetized patient during surgery.

Erin beach chair face mask

- For use with Smith & Nephew® T-MAX™ beach chair 7210996
- Comparable to Smith & Nephew® T-MAX™ disposable face mask 7210559
- Soft, non-abrasive foam for patient comfort

Product Code	Description	Qty
711001	Non-sterile, intended for single-use	10/Box

Erin beach chair face mask replacement straps

- For use with Smith & Nephew® T-MAX™ beach chair 7210996
- Comparable to Smith & Nephew® T-MAX™ replacement strap 7210558
- Compatible with Erin Beach Chair face mask (711001)
- Reusable

Product Code	Description	Qty
711002	Non-sterile	1 Pair/Box

Universal head restraint

- For use with Allen® beach chair positioner and Arthrex® beach chair positioner
- Comparable to Allen® universal™ head restraint A-90023 and Arthrex® universal head restraint AR-1627-06
- Soft, non-abrasive foam for patient comfort

Product Code	Description	Qty
711004	Non-sterile, intended for single-use	10/Box

Indy beach chair face mask

- For use with Allen® Flexiform™ head rest A-90017
- Comparable to Allen® Flexiform™ head rest disposable A-90019
- Soft, non-abrasive foam for patient comfort

Product Code	Description	Qty
711003	Non-sterile, intended for single-use	10/Box

Bethesda beach chair face mask

- For use with Schuremed™ beach chair 800-0004, Stryker® shoulder chair OZ 7519475 and OZ 7523075, and Skytron® beach chair
- Comparable to Schuremed™ disposable face mask 800-0164, Stryker® disposable mask OZ 7547575, and Skytron® disposable face mask 3-040-33
- Soft, non-abrasive foam for patient comfort

Product Code	Description	Qty
711000	Non-sterile, intended for single-use	10/Box

Beach chair head and chin straps

- For use with Skytron® beach chair, Schuremed™ beach chair, Steris® beach chair, Stryker® shoulder chair OZ 7519475 and OZ 7523075
- Comparable to Skytron® beach chair head & chin straps 3-040-22, Schuremed™ disposable head & chin strap 800-0039, Steris® head restraint straps BF039, and Stryker® chin strap OZ 7518375
- Soft, non-abrasive foam for patient comfort

Product Code	Description	Qty
711005	Non-sterile, intended for single-use	20/Box

Shoulder positioner kits

The north american-made sterile kits provide high quality for the clinical staff, while at the same time offering cost savings to the medical facility. For example, the lateral kits feature a snap clip to more securely attach the product to the frame and cost less than the brand name. Each kit is designed for single patient use. Intended to support and maintain the position of an anesthetized patient during surgery.

Marco shoulder stabilization kit

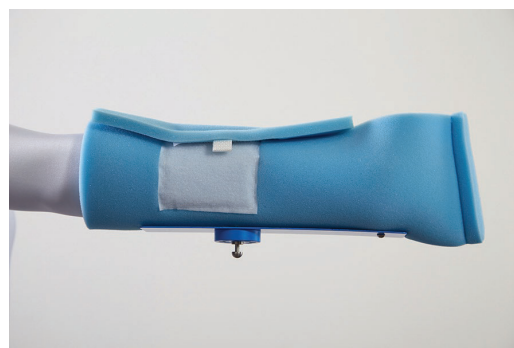

- For use with Smith & Nephew® SPIDER™ limb positioner 7210569
- Comparable to Smith & Nephew® SPIDER™ shoulder stabilization kit 7210573
- Includes drape, arm & hand cuffs, hand grip, and 10cm x 4.5m 3M® Coban™
- Kit allows for quick and easy patient prep
- Soft, non-abrasive foam for patient comfort
- Not made of natural rubber latex

Product Code	Description	Qty
711100	Sterile, intended for single-use	12/Box

Berkette beach chair limb positioner kit

- For use with Arthrex® Trimano® shoulder positioner AR-1640
- Comparable to Arthrex® Trimano® beach chair shoulder kit AR-1644
- Includes foam sleeve, hand grip, drape, and 10cm x 4.5m 3M® Coban™
- Kit allows for quick and easy patient prep
- Soft, non-abrasive foam for patient comfort
- Not made of natural rubber latex

Product Code	Description	Qty
711200	Sterile, intended for single-use	6/Box

Jessie arm suspension kit

- For use with McConnell limb positioner
- Comparable to McConnell arm support 12-401
- Includes arm wrap, placement strap, and hand hexapod
- Kit allows for quick and easy patient prep
- Soft, non-abrasive foam for patient comfort
- Not made of natural rubber latex

Product Code	Description	Qty
711300	Sterile, intended for single-use	10/Box

Norton arm restraint kit

- For Use With Allen® Beach Chair A-92000
- Comparable To Allen® Arm Positioner Restraint A-92001
- Includes Foam Arm Drape
- Kit allows for quick and easy patient prep
- Soft, non-abrasive foam for patient comfort
- Not made of natural rubber latex

Product Code	Description	Qty
711400	Sterile, intended for single-use	10/Box

Dr Don's® arm canoe

- For Use With Arthrex® Lateral Decubitus Shoulder Traction Tower AR-1630 and Arthrex® 3-Point Shoulder Distraction System AR-1600M
- Comparable To Arthrex® STAR™ Sleeve AR-1606
- Includes Convoluted Foam Sleeve, Arm Support Wrap, and 10cm x 4.5m 3M® Coban™
- Soft, non-abrasive foam for patient comfort
- Carabiner clip prevents accidental S-hook slips from occurring mid-procedure
- Not made of natural rubber latex

Product Code	Description	Qty
711500	Sterile, intended for single-use	5/Box

Dr Don's® arm canoe-v

- For Use With Arthrex® Lateral Decubitus Shoulder Traction Tower AR-1630 and Arthrex® 3-Point Shoulder Distraction System AR-1600M
- Comparable To Arthrex® STAR™ Sleeve AR-1606V
- Includes Convoluted Foam Sleeve and Arm Support Wrap
- Soft, non-abrasive foam for patient comfort
- Carabiner clip prevents accidental S-hook slips from occurring mid-procedure
- Not made of natural rubber latex

Product Code	Description	Qty
711501	Sterile, intended for single-use	5/Box

Dr Don's® arm suspension kit

- Comparable To Instrumed® Upper Extremity Drape IN-9300CLF and DeRoyal® Shoulder Suspension Kit 32-525
- Includes fluid resistant sleeve, rope and snap hook, and 10cm x 4.5m 3M® Coban™
- Fluid resistant stockinette allows for secure patient positioning
- Carabiner clip prevents accidental S-hook slips from occurring mid-procedure
- Not made of natural rubber latex

Product Code	Description	Qty
711502	Sterile, intended for single-use	10/Box

Dr Don's® arm suspension kit – montana

- Comparable To Smith & Nephew® Shoulder Suspension Kit 72200195 and Zimmer Biomet® Shoulder Suspension Kit 905026
- Includes Reinforced sleeve, rope and snap hook and 10cm x 4.5m 3M® Coban™
- Reinforced, soft cloth lined stockinette allows for secure patient positioning and patient comfort
- Carabiner clip prevents accidental S-hook slips from occurring mid-procedure
- Not made of natural rubber latex

Product Code	Description	Qty
711503	Sterile, intended for single-use	10/Box

Knee & ankle positioners

Each product below provides high quality for the clinical staff, while at the same time offering cost savings to the medical facility. These sterile kits and positioning foam products are designed for single patient use. Intended to support and maintain the position of an anesthetized patient during surgery.

Hermanator® knee positioning pad

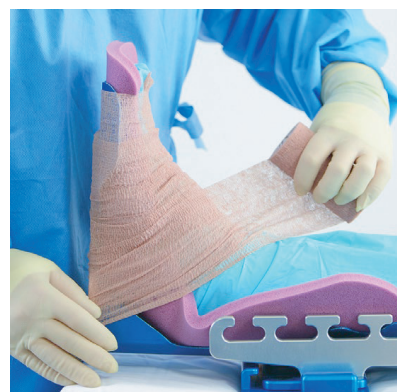

- For Use With IMP® De Mayo Knee Positioner® 803 AND 803-S, and Match Grade Ladderloc Knee Positioner, SchureMed™ TKR Knee Positioner, and Innomed® Robb Knee Positioner
- Comparable To IMP® De Mayo Knee Positioner Pad 294-P-10 and 803-GP-10, Zimmer® Alvarado Disposable Liner 00-1320-015-10, Innomed® Sterile Protective Pad 2629-00, and SchureMed™ TKR Disposable Liner 800-0146
- Helps decrease device related mechanical pressure injury, especially to the high risk areas of the posterior, medial, and lateral malleolus
- Soft, high-density memory foam provides enhanced patient safety
- Not made of natural rubber latex

Product Code	Description	Qty
713100	Sterile, intended for single-use	10/Box

XL Hermanator® pink knee positioning pad

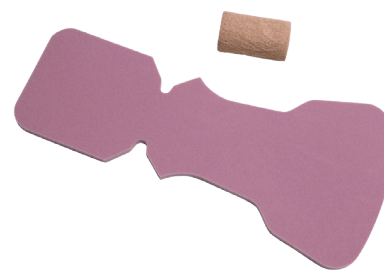

- For use with IMP® De Mayo Knee Positioner® 803 AND 803-S and Match Grade Ladderloc Knee Positioner
- Comparable to IMP® De Mayo Knee Positioner® 803-GP-10
- Helps decrease device related mechanical pressure injury, especially to the high risk areas of the posterior, medial, and later malleolus
- Soft, high-density memory foam provides enhanced patient safety
- Not made of natural rubber latex

Product Code	Description	Qty
713300	Sterile, intended for single-use	10/Box

Strako® knee positioning pad

- For use with the Stryker® Mako® Leg Positioner
- Comparable to Stryker® Mako® Leg Positioner Disposable Kit
- Secures patient's foot into the leg holder boot to help stabilize the knee during surgery
- Helps decrease device related mechanical pressure injury
- Sterile, intended for single-use and not made with natural rubber latex

Product Code	Description	Qty
713800	Sterile, intended for single-use	6/Box

TLC distraction pad set

- For Use With IMP® De Mayo Universal Distractor® 907
- Comparable To IMP® De Mayo Pressure Protector Pad® Set 907-GP-10
- Includes Memory pad, 10cm x 4.5m 3M® Coban™ and Knee Distraction Guard
- Semi circle memory pad prevents device from rolling into the popliteal area while providing a safe view into the posterior capsule
- Helps protect the posterior thigh from mechanical pressure injury
- Soft, high-density memory foam provides enhanced patient safety
- Not made of natural rubber latex

Product Code	Description	Qty
713200	Sterile, intended for single-use	10/Box

Leg comfort pad

- For Use With Allen® Leg Holder R-734-33, Smith & Nephew® Acufex Knee Holder, SchureMed™ Schure Grip Leg Holder 800-0065, and Stryker® Arthroscopy Leg Holder OZ 7511975
- Comparable To Allen® Leg Holder Disposable R-S4133-V, Smith & Nephew® Disposable Leg Holder Pads 3757, SchureMed™ Schure Grip Leg Holder Pads 508-0103, and Stryker® Disposable Pad OZ 7512075
- Inner foam is soft and non-abrasive for patient comfort
- Outer foam is a dense material that helps provide appropriate clamping pressure to stabilize the leg

Product Code	Description	Qty
713600	Non-sterile, intended for single-use	12/Box

Smoot ankle distraction strap

- For Use With Smith & Nephew® GUHL™ Positioner and Arthrex® Ankle Distractor
- Comparable To Smith & Nephew® GUHL™ Ankle Distraction Strap 014407 and Arthrex® Ankle Distraction Strap AR-1712
- Soft, non-abrasive foam where ankle meets strap for patient comfort
- Carabiner clip prevents accidental S-hook slips from occurring mid-procedure

Product Code	Description	Qty
